

**NOTICE OF INTENT TO CLOSE  
CCR SURFACE IMPOUNDMENT UNIT  
R.D. MORROW, SR. GENERATING STATION  
PURVIS, MISSISSIPPI**

Cooperative Energy provides notification of Intent to Initiate Closure of the existing Coal Combustion Residuals (CCR) Surface Impoundment Unit, which is composed of two surface impoundments (the Emergency Scrubber Surge Pond and the Scrubber Supply Pond), at the R.D. Morrow, Sr. Generating Station in Purvis, Mississippi pursuant to 40 CFR Part 257 (the CCR Rule). This Notification of Intent to Close CCR Surface Impoundment has been prepared pursuant to 40 CFR 257.102(g) of the CCR rule.

Cooperative Energy is initiating closure of the CCR Surface Impoundment Unit because the Unit has had its last known receipt of waste pursuant to 40 CFR 257.102(e). Cooperative Energy has elected closure by removal in accordance with 40 CFR 257.102(c) of the CCR Rule. Cooperative Energy reserves the right to close the unit in accordance with the alternate closure options.

It is my understanding that Cooperative Energy will complete closure of the CCR Impoundment Unit by removal of CCR in accordance with the technical requirements of § 257.102(c) of the CCR rule.

Date: 6/16/2020
